FOR IMMEDIATE RELEASE

SAN LUIS OBISPO, FEBRUARY 20, 2013 -

HOST DENNIS MILLER TO M/C SPECIAL PRE-RELEASE SCREENINGS OF INDIE MOVIE MINDSCANS

Dennis Miller, (no, not that Dennis Miller) Host of Smoke and Mirrors (<http://www.smoke-and-mirrors.us>) - the PARSEC Awards (<http://www.parsecawards.com>) nominated program for speculative fiction podcasting, has been confirmed to M/C the Special Advanced Pre-release Screenings of MindScans from Alliance Digital Studios at the Atascadero, California Galaxy Theatres on February 25th, 6pm and February 28th, 7pm 2013.

Alliance Digital Studios' Chief, Ben Chiu, says, "Smoke and Mirrors has been channeling the spirit of classic old-time radio dramas for years, but with modern stories from famous Sci-Fi writers like Mike Resnick [Battlestar Galactica #5], George Clayton Johnson [writer of several original Twilight Zone episodes including "Kick the Can," "A Game of Pool," and the original Star Trek series episode "The Man Trap" and the movie "Ocean's Eleven"], and up-and-coming talented writers, voice over performers and musicians. Dennis is the closest to a modern day Rod Serling out there that we know of, so we're very honored to have him set the mood for and lead our upcoming events."

Based on a story from Best Selling Sci-Fi Author Steven L Kent, the feature length movie MindScans, from the San Luis Obispo-based Alliance Digital Studios, begins a theatrical run at the Galaxy Theatres on February 25th, 2013 in Atascadero, California to a sold out crowd.

Mr. Miller says, "MindScans begins with a quote and it proceeded to toss out of the window most of my preconceptions vis a vis reality and virtual-ity. Then the plot kicked in and I was surprised...surprised and forced to consider what a Brave New World we're about to enter. I'm really humbled to be play a small part in introducing this wonderful production to the world."

ALLIANCE DIGITAL STUDIOS, like the studios during the early days of Hollywood, is essentially a guy that owns a camera and few other guys that move lights. Utilizing the principles coined as "smart movie making" to produce high-quality, ultra-low budget features while residing in one of the best places to live in the world--San Luis Obispo, California.

"MindScans" - Investigative reporter Sara Lincoln is invited to write about the mysterious MindScan Inc., the company behind the Prometheus Bionetic Interface, which connects the human brain to a virtual reality super-computer. Numerous lawsuits from former customers, and in some cases their estates, push creator/founder Tom Sobel to expose the technology to the public.

While researching her story, Sara struggles with the social and moral implications of the technology and gets more than she bargained for as the lines between her ethics, the virtual world, and reality blur.
